SUBJECT INDEX

Accreditation
(see Inspection and accreditation)

AIDS
From the CDC: The Laboratory Performance Information Exchange System (Computer Dialog). Jan/56
Final OSHA regs mandate HIV, HBV protection (Washington Report). Feb/17
AIDS precautions in the '90s: Prudence or paranoia? April/51
Scientific world belatedly recognizes HIV risks to laboratorians. Oct/32
Is directed blood transfusion a good idea? Nov/31
Notes from the national conference on prevention of device-mediated bloodborne infections. Nov/43

Alternate-site testing
(see Near-patient testing)

Automation
(see also: Instrumentation)
A laboratory automation platform: The next robotic step. Oct/24

Bar codes
Bar codes, Part 1: Joining the bar code revolution. Dec/22
What are all those lines and spaces? Understanding bar code technology. Dec/25

Bedside testing
(see Near-patient testing)

Biodecontamination
Biodecontamination of a clinical laboratory. Feb/45

Blood banking
Parasitic infection from blood transfusions. Sept/55
To improve communication, cultivate your writing. Oct/54
Is directed blood transfusion a good idea? Nov/31
A phased approach to transfusion reaction investigation. Nov/49

Budgeting
(see Financial management)

Career development
The search for hidden talents (Viewpoint). March/7
Should you consider using (or being) a temporary tech? April/45
The status of women in the laboratory, Part 1: Job satisfaction in the field: Women speak out. June/22
Consider alternative modes of compensation. July/27
The role of a development lab in a hospital setting. July/50
The essential role of a mentor (Viewpoint). Aug/17

Career ladder
(see Career development)

Certification and licensure
A guide to NIDA certification for workplace drug testing. Feb/31

Child care
The status of women in the laboratory, Part 2: Parenthood, harassment, and other workplace distractions. June/29
Creative strategies to survive the shortage. Sept/39

CLIA '88
(see also: Government relations; Regulations)
HCFA's Gail Wilensky explains final CLIA '88 regs (Washington Report). Jan/18
Elusive CLIA regs on track, more or less (Washington Report). March/18
CLIA '88 rules go final, HCFA details sweeping changes (Washington Report). April/17
With more questions than answers, industry studies impact of CLIA '88 (Washington Report). May/17
Tips for meeting the tough new cytology regulations. May/45
An automated system for record keeping, test reporting, and QC in gyn cytology (Computer Dialog). May/57
We have ourselves to thank for the sad state of our profession (Viewpoint). June/7
CLIA may curb 4,000 POLs (Washington Report). June/19
Coping with CLIA, Part 1: How to obtain a CLIA certificate without getting stuck in the details. Aug/26. Part 2: How to meet the new personnel requirements while continuing to operate your laboratory. Sept/47. Part 3: How to read the Federal Register and other CLIA-related documents. Oct/47. Part 4: A master plan for implementing CLIA. Nov/36. Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
Selecting instruments with an eye to CLIA. Aug/33
With final rules all in place, CLIA takes effect (Washington Report). Sept/19
Lab staffing today, Part 2: Recoiling from CLIA, living with less. Sept/31
POLs adjusting to life under CLIA (Washington Report). Dec/19
Internal proficiency testing for hematology. Dec/43

Client satisfaction
(see Customer relations)

Coagulation monitoring
(see Near-patient testing)

Communication
Managing anger, Part 1: How to use anger constructively. Feb/24. Part 2: Sound strategies for controlling anger. March/34
Two magic words with an exhilarating effect (Viewpoint). April/7
To improve communication, cultivate your writing. Oct/54

Computers
Information management truths in small bytes. Jan/52
From the CDC: The Laboratory Performance Information Exchange System (Computer Dialog). Jan/56
Casting your net for optimal networking (Computer Dialog). Feb/51
How to tell when it's time to replace your laboratory computer (Computer Dialog). March/47
A database for abnormal morphology (Computer Dialog). April/55
An automated system for record keeping, test reporting, and QC in gyn cytology (Computer Dialog). May/57
Personal computers in the lab: What will the future bring? (Computer Dialog). June/61
Lotus 1-2-3 worksheet for fibrinogen calibration curves (Computer Dialog). July/63
Computer programs for microbiology training and continuing education (Computer Dialog). Aug/59
Simplified use of batch files (Computer Dialog). Sept/73
A laboratory graphic data acquisition system (Computer Dialog). Oct/61
Spreadsheet templates for calculating linearity according to EP6-P (Computer Dialog). Nov/59
Bar codes, Part 1: Joining the bar code revolution. Dec/22
What are all those lines and spaces? Understanding bar code technology. Dec/25
Boost QI efforts with expert technology. Dec/50
Templates for generating Levey-Jennings and Westgard QC charts (Computer Dialog). Dec/53

Continuing education
(see Education)

Continuous quality improvement
(see Quality improvement)

Cross-training
The role of the laboratory in a patient-driven system. Aug/54
Creative strategies to survive the shortage. Sept/39

Customer relations
(see also: Patient relations)
Conducting QI studies that effect change. Oct/39

Cytology
(see also: CLIA '88)
Tips for meeting the tough new cytology regulations. May/45
An automated system for record keeping, test reporting, and QC in gyn cytology (Computer Dialog). May/57

Discrimination
The status of women in the laboratory, Part 1: Job satisfaction in the field: Women speak out. June/22. Part 2: Parenthood, harassment, and other workplace distractions. June/29
Sidestep legal pitfalls in employee promotion. Sept/65

Drug abuse testing
A guide to NIDA certification for workplace drug testing. Feb/31

Education
Interactive instruments to help labs "work smarter." Feb/20
Complying with the new OSHA regs, Part 1: Teaching your staff about biosafety. April/24
Study aids for retraining and updating technologists. May/40
The role of a development lab in a hospital setting. July/50
Computer programs for microbiology training and continuing education (Computer Dialog). Aug/59
Coping with CLIA, Part 2: How to meet the new personnel requirements while continuing to operate your laboratory. Sept/47
Part-time curricula can promote student recruitment. Oct/57
Internal proficiency testing for hematology. Dec/43

Ethics
Seven forces reshaping the clinical laboratory. May/22

1992 Editorial Index

We have ourselves to thank for the sad state of our profession (Viewpoint). June/7
Lab discounts to physicians under fire (Washington Report). June/17
Self-referral controversy boils anew (Washington Report). Aug/21
How would you handle these prickly management problems? Nov/24

Expert systems
(see Computers)

Financial management
A cost-of-quality model for a hospital laboratory. Jan/47
Enhance laboratory workflow to save steps and money. April/31
Surviving and flourishing in tough times. April/37
Using cost-effectiveness analysis to weigh testing decisions. Special Issue/29

Flow cytometry
(see also: Technology)
Bravely entering the new world of flow cytometry. Jan/42

Fraud and abuse
HCFA, IRS, FBI intensify fraud and abuse investigations (Washington Report). March/17
We have ourselves to thank for the sad state of our profession (Viewpoint). June/7
Lab discounts to physicians under fire (Washington Report). June/17

Government relations
(see also: Washington Report Index)
Threat to "home brew" products angers labs (Washington Report). Nov/19
Notes from the national conference on prevention of device-mediated bloodborne infections. Nov/43

Health care trends
(see also: AIDS; Government relations; Washington Report Index)
Seven forces reshaping the clinical laboratory. May/22
We have ourselves to thank for the sad state of our profession (Viewpoint). June/7
Labs face new fee cut to fund health insurance plan (Washington Report). July/17
Joining the technological evolution in health care. Special Issue/2
The hybrid laboratory: Shifting the focus to the point of care. Special Issue/17
Candidates differ widely on health care reform (Washington Report). Oct/19

Hematology
Internal proficiency testing for hematology. Dec/43

Hepatitis B
(see Infection control)

HIV infection
(see AIDS)

Infection control
Final OSHA regs mandate HIV, HBV protection (Washington Report). Feb/17
Biodecontamination of a clinical laboratory. Feb/45
Complying with the new OSHA regs, Part 1: Teaching your staff about biosafety. April/24. Part 2: Safety protocols no lab can ignore. May/27. Part 3: Compiling employee safety records that will satisfy OSHA. June/45
AIDS precautions in the '90s: Prudence or paranoia? April/51
Parasitic infection from blood transfusions. Sept/55
Notes from the national conference on prevention of device-mediated bloodborne infections. Nov/43

Inspection and accreditation
POLs adjusting to life under CLIA (Washington Report). Dec/19
Coping with CLIA, Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
Internal proficiency testing for hematology. Dec/43

Instrumentation
(see also: Computers)
Interactive instruments to help labs "work smarter." Feb/20
The role of a development lab in a hospital setting. July/50
Selecting instruments with an eye to CLIA. Aug/33
Implementing near-patient coagulation monitoring. Aug/43
Joining the technological evolution in health care. Special Issue/2
Controlling error in laboratory testing. Special Issue/8
The hybrid laboratory: Shifting the focus to the point of care. Special Issue/17
Using cost-effectiveness analysis to weigh testing decisions. Special Issue/29
A collaborative approach to managing risk. Special Issue/36

Interdepartmental relations
Implementing near-patient coagulation monitoring. Aug/43
The role of the laboratory in a patient-driven system. Aug/54
A collaborative approach to managing risk. Special Issue/36
A phased approach to transfusion reaction investigation. Dec/49

Job descriptions
Technician or technologist? Sorting out overlapping roles in the lab. June/36

Job satisfaction
Quality of care calls for joy and compassion. April/42
The status of women in the laboratory, Part 1: Job satisfaction in the field: Women speak out. June/22
Lab staffing today, Part 1: The shortage gets worse, but laboratorians get better. Sept/24. Part 2: Recoiling from CLIA, living with less. Sept/31
Is there a union in your future? (Viewpoint). Nov/9

Labor relations
(see Unions)

Laboratory information system
(see Computers)

Laboratory of the future
The state of the unions in the clinical laboratory, Part 2: Impassioned stares at a crystal ball. Jan/30
Interactive instruments to help labs "work smarter." Feb/20
Seven forces reshaping the clinical laboratory. May/22
Personal computers in the lab: What will the future bring? (Computer Dialog). June/61
The payload of a clinical lab in space. July/20
Selecting instruments with an eye to CLIA. Aug/33

Laboratory ownership
Lab discounts to physicians under fire (Washington Report). June/17
Self-referral controversy boils anew (Washington Report). Aug/21

Legal issues
A management primer on labor relations. Jan/22.
The state of the unions in the clinical laboratory, Part 2: Impassioned stares at a crystal ball. Jan/30
Seven forces reshaping the clinical laboratory. May/22
Open your doors to the disabled—it's the law. Aug/49
Sidestep legal pitfalls in employee promotion. Sept/65
Is directed blood transfusion a good idea? Dec/31

Licensure
(see Certification and licensure)

Maintenance
(see Instrumentation)

Management techniques
(see also: Retention; Staff relations; Management Q&A Index)
Managing anger, Part 1: How to use anger constructively. Feb/24. Part 2: Sound strategies for controlling anger. March/34
Two magic words with an exhilarating effect (Viewpoint). April/7
Take a stand on sexual harassment now (Viewpoint). July/7
How to qualify as a praise master. July/41
The essential role of a mentor (Viewpoint). Aug/17
Ten morale boosters for off-shift staff. Aug/40
Machiavellian politics: Your key to success? (Viewpoint). Oct/9
How would you handle these prickly management problems? Nov/24
Don't neglect your gold-medal workers (Viewpoint). Dec/9

Maternity leave
Thoughts on maternity leave from a mother–manager. June/53
A well-designed maternity leave form prevents confusion and disappointment. June/56

Method evaluation
Coping with CLIA, Part 4: A master plan for implementing CLIA. Nov/36
Spreadsheet templates for calculating linearity according to EP6-P (Computer Dialog). Nov/59

Microbiology
Computer programs for microbiology training and continuing education (Computer Dialog). Aug/59

MLO
Changes in the MLO lineup (Editor's Memo). Aug/9
The winners of the MLO 1992 Article Awards Contest. Nov/55

Money-saving tips
(see Financial management)

Motivation
Motivating staff: Proactive and reactive techniques. Feb/38
"I'm sick and can't come to work today." May/31
Consider alternative modes of compensation. July/27
How to qualify as a praise master. July/41
Machiavellian politics: Your key to success? (Viewpoint). Oct/9
Don't neglect your gold-medal workers (Viewpoint). Dec/9

Near-patient testing
Implementing near-patient coagulation monitoring. Aug/43
Joining the technological evolution in health care. Special Issue/2
Controlling error in laboratory testing. Special Issue/8
The hybrid laboratory: Shifting the focus to the point of care. Special Issue/17
Using cost-effectiveness analysis to weigh testing decisions. Special Issue/29
A collaborative approach to managing risk. Special Issue/36

Off-shift staff
(see also: Scheduling)
Ten morale boosters for off-shift staff. Aug/40

Off-site testing
(see Near-patient testing)

OSHA
(see Regulations)

Part-time workers
(see Staffing; Women in the laboratory)

1992 Editorial Index

Patient relations
Quality of care calls for joy and compassion. April/42
Seven forces reshaping the clinical laboratory. May/22
The role of the laboratory in a patient-driven system. Aug/54
Is directed blood transfusion a good idea? Nov/31

Performance evaluations
Sidestep legal pitfalls in employee promotion. Sept/65

Performance standards
Performance standards based on quality, not quantity. July/57

Personnel shortage
Seven forces reshaping the clinical laboratory. May/22
Lab staffing today, Part 1: The shortage gets worse, but laboratorians get better. Sept/24. Part 2: Recoiling from CLIA, living with less. Sept/31
Creative strategies to survive the shortage. Sept/39

Personnel standards
Coping with CLIA, Part 2: How to meet the new personnel requirements while continuing to operate your laboratory. Sept/47. Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32

Phlebotomy
Complying with the new OSHA regs, Part 2: Safety protocols no lab can ignore. May/27
"I'm sick and can't come to work today." May/31

Physician relations
Lab discounts to physicians under fire (Washington Report). June/17
Self-referral controversy boils anew (Washington Report). Aug/21
The hybrid laboratory: Shifting the focus to the point of care. Special Issue/17
Conducting QI studies that effect change. Oct/39
How would you handle these prickly management problems? Nov/24

Physicians' office laboratories
(see also: CLIA '88; Washington Report Index)
POLs adjusting to life under CLIA (Washington Report). Dec/19

Planning
A cost-of-quality model for a hospital laboratory. Jan/47
Enhance laboratory workflow to save steps and money. April/31
Thoughts on maternity leave from a mother–manager. June/53
A well-designed maternity leave form prevents confusion and disappointment. June/56
The role of a development lab in a hospital setting. July/50
The role of the laboratory in a patient-driven system. Aug/54
Using cost-effectiveness analysis to weigh testing decisions. Special Issue/29
A collaborative approach to managing risk. Special Issue/36

Point-of-care testing
(see Near-patient testing)

POLs
(see Physicians' office laboratories)

Pregnancy
(see Maternity leave)

Preventive maintenance
(see Instrumentation)

Procedures, policies, protocols
Complying with the new OSHA regs, Part 2: Safety protocols no lab can ignore. May/27. Part 3: Compiling employee safety records that will satisfy OSHA. June/45
"I'm sick and can't come to work today." May/31
Implementing near-patient coagulation monitoring. Aug/43
The role of the laboratory in a patient-driven system. Aug/54
Controlling error in laboratory testing. Special Issue/8
How would you handle these prickly management problems? Nov/24
Is directed blood transfusion a good idea? Nov/31
Innovative ideas for complying with OSHA regs. Dec/30
Coping with CLIA, Part 4: A master plan for implementing CLIA. Nov/36. Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
A phased approach to transfusion reaction investigation. Nov/49
Internal proficiency testing for hematology. Dec/43

Professional image and status
If we're professionals, let's act the part (Viewpoint). Jan/7
The time has come to rename ourselves (Viewpoint). Feb/7

Proficiency testing
A guide to NIDA certification for workplace drug testing. Feb/31
Voluntary proficiency testing: A step toward excellence. March/37
With more questions than answers, industry studies impact of CLIA '88 (Washington Report). May/17
With final rules all in place, CLIA takes effect (Washington Report). Sept/19
AAB approved for PT (Washington Report). Dec/20
Coping with CLIA, Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
Internal proficiency testing for hematology. Dec/43

Promotions
The status of women in the laboratory, Part 1: Job satisfaction in the field: Women speak out. June/22
Sidestep legal pitfalls in employee promotion. Sept/65

Purchasing
Information management truths in small bytes. Jan/52
Selecting instruments with an eye to CLIA. Aug/33
Maximize your purchasing power (Viewpoint). Sept/9

Quality assurance
A QA plan to monitor charted lab results. March/31
Voluntary proficiency testing: A step toward excellence. March/37
Specimen pathway analysis aids quality and efficiency. July/33
Coping with CLIA, Part 4: A master plan for implementing CLIA. Nov/36

Quality control
A cost-of-quality model for a hospital laboratory. Jan/47
Coping with CLIA, Part 4: A master plan for implementing CLIA. Nov/36. Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
Spreadsheet templates for calculating linearity according to EP6-P (Computer Dialog). Nov/59
Internal proficiency testing for hematology. Dec/43
Templates for generating Levey-Jennings and Westgard QC charts (Computer Dialog). Dec/53

Quality improvement
Readers' strategies for quality improvement, Part 1: Making the grade on the long road to QI. March/20. Part 2: How straight is the road to QI? March/26
Conducting QI studies that effect change. Oct/39
A phased approach to transfusion reaction investigation. Nov/49
Boost QI efforts with expert technology. Dec/50

Record keeping
Complying with the new OSHA regs, Part 3: Compiling employee safety records that will satisfy OSHA. June/45
Coping with CLIA, Part 4: A master plan for implementing CLIA. Nov/36

Recruitment
How we made the quality and quantity of applicants soar. Feb/27
For high visibility and low-cost recruitment, talk to students. May/51
Creative strategies to survive the shortage. Sept/39

Regulations
HCFA's Gail Wilensky explains final CLIA '88 regs (Washington Report). Jan/18
Final OSHA regs mandate HIV, HBV protection (Washington Report). Feb/17
Elusive CLIA regs on track, more or less (Washington Report). March/18
CLIA '88 rules go final, HCFA details sweeping changes (Washington Report). April/17
Complying with the new OSHA regs, Part 1: Teaching your staff about biosafety. April/24. Part 2: Safety protocols no lab can ignore. May/27. Part 3: Compiling employee safety records that will satisfy OSHA. June/45
AIDS precautions in the '90s: Prudence or paranoia? April/51
With more questions than answers, industry studies impact of CLIA '88 (Washington Report). May/17
Seven forces reshaping the clinical laboratory. May/22
Tips for meeting the tough new cytology regulations. May/45
Open your doors to the disabled—it's the law. Aug/49
Coping with CLIA, Part 2: How to meet the new personnel requirements while continuing to operate your laboratory. Sept/47. Part 5: How to prepare for a proficiency testing event (and survive a failure). Dec/32
Notes from the national conference on prevention of device-mediated bloodborne infections. Nov/43
POLs adjusting to life under CLIA (Washington Report). Dec/19
Innovative ideas for complying with OSHA regs. Dec/30
Internal proficiency testing for hematology. Dec/43

Reimbursement
Seven forces reshaping the clinical laboratory. May/22
Labs face new fee cut to fund health insurance plan (Washington Report). July/17

Result reporting
A QA plan to monitor charted lab results. March/31

Retention
Consider alternative modes of compensation. July/27

Retraining
(see Education)

Reviews
(see Performance evaluations)

Risk management
(see Safety)

Robotics
A laboratory automation platform: The next robotic step. Oct/24

Safety
Complying with the new OSHA regs, Part 1: Teaching your staff about biosafety. April/24. Part 2: Safety protocols no lab can ignore. May/27. Part 3: Compiling employee safety records that will satisfy OSHA. June/45
The status of women in the laboratory, Part 2: Parenthood, harassment, and other workplace distractions. June/29
A phased approach to transfusion reaction investigation. Nov/49

1992 Editorial Index

Salaries
The status of women in the laboratory, Part 1: Job satisfaction in the field: Women speak out. June/22
Technician or technologist? Sorting out overlapping roles in the lab. June/36
Consider alternative modes of compensation. July/27

Scheduling
Creative strategies to survive the shortage. Sept/39

Self-referral
(see Laboratory ownership)

Sexual harassment
The status of women in the laboratory, Part 2: Parenthood, harassment, and other workplace distractions. June/29
Take a stand on sexual harassment now (Viewpoint). July/7

Shortage
(see Personnel shortage)

Sick-leave abuse
"I'm sick and can't come to work today." May/31

Specimen processing
Enhance laboratory workflow to save steps and money. April/31
Specimen pathway analysis aids quality and efficiency. July/33

Staff morale
Two magic words with an exhilarating effect (Viewpoint). April/7
Quality of care calls for joy and compassion. April/42
Ten morale boosters for off-shift staff. Aug/40
How would you handle these prickly management problems? Nov/24

Staff relations
Managing anger, Part 1: How to use anger constructively. Feb/24
Quality of care calls for joy and compassion. April/42
"I'm sick and can't come to work today." May/31
How would you handle these prickly management problems? Nov/24

Staffing
With more questions than answers, industry studies impact of CLIA '88 (Washington Report). May/17
Technician or technologist? Sorting out overlapping roles in the lab. June/36
Open your doors to the disabled—it's the law. Aug/49
Lab staffing today, Part 1: The shortage gets worse, but laboratorians get better. Sept/24. Part 2: Recoiling from CLIA, living with less. Sept/31
Creative strategies to survive the shortage. Sept/39
Coping with CLIA, Part 2: How to meet the new personnel requirements while continuing to operate your laboratory. Sept/47

Strategic planning
(see Planning)

Technical procedures
(see Automation; Procedures, policies, protocols; Technology)

Technology

MANAGEMENT Q & A INDEX

Accreditation
(see Inspection and accreditation)

Administration relations
Use fewer safety products, administration admonishes. May/73

AIDS
Mandated HIV testing for laboratory staff. Sept/91

Attitudinal problems
Supervisor denies he's rude to clerical staff. July/70

Behavioral problems
MT's explosive behavior has coworkers distraught. Feb/55
Frenzied political debate splits openly partisan technologists. Nov/65
Lab manager won't halt supervisor–technologist romance. Dec/68

Benefits and perks
Supervisor's extended sick leave leaves a gap. April/64

Blood banking
Career advice for work with blood bank computers. Jan/62

Budgeting
(see Financial management)

Call
(see Scheduling)

Career development
Career advice for work with blood bank computers. Jan/62
Illegal to stay after accepting a job elsewhere? April/63
How can an MLT become certified as an MT? May/75
Clerical staff promoted out of lab, leaving gaps. June/70
Is chief tech overqualified for staff position? Oct/70

Chain of command
Section director pillages budget for pet projects. April/64

Communication
Communication goes up but it doesn't come down. Jan/60
Should new lab manager institute open-door policy? May/71
Enhancing communication with the pharmacy staff. Aug/70

Competition
(see Marketing)

Computers
Career advice for work with blood bank computers. Jan/62

Confrontation
Supervisor suspects lab of committing fraud. Nov/66
Lab manager won't halt supervisor–technologist romance. Dec/68

Continuing education
(see Education)

Counseling
(see Discipline and counseling)

Coverage
(see Scheduling)

Cross-training
Interdepartmental cross-training: Perils and pitfalls. Sept/85

Delegation
When to follow up on delegated tasks. Aug/67

Discipline and counseling
Lab manager permits dangerously sloppy work. Aug/67
Minority employee cries discrimination when criticized. Dec/71

Discrimination
Supervisor shows favoritism to his male pals. June/67
How to deflect lab director's unwanted attentions. Oct/70
Minority employee cries discrimination when criticized. Dec/71

Dress code
Should contact lenses be banned in the lab? Feb/56
Unsafe: Long hair and dangling jewelry. March/53
Is it wise to institute a dress code in the lab? Dec/68

Duty disputes
MT's explosive behavior has coworkers distraught. Feb/55
Let one MT, who likes the phone, field all calls? March/56
Evening technologists cry, "It's not my job!" April/66
Staff won't distribute survey forms to patients. May/69
Cosigning work of bench tech with little training. July/69
Manual test reporting increases errors, bogs down lab operations. Nov/65

Education
Career advice for work with blood bank computers. Jan/62
How can an MLT become certified as an MT? May/75
Should lab managers be well versed in finance? Sept/87
Educator bemoans lack of interest in continuing education. Nov/68

Equipment
(see Instrumentation)

Ethics
Report lab director for doing a "sink test"? April/63
Illegal to stay after accepting a job elsewhere? April/63
Lab manager permits dangerously sloppy work. Aug/67

Favoritism
Supervisor shows favoritism to his male pals. June/67

Financial management
Section director pillages budget for pet projects. April/64
Use fewer safety products, administration admonishes. May/73
Should lab managers be well versed in finance? Sept/87

Fraud and abuse
Report lab director for doing a "sink test"? April/63
Supervisor suspects lab of committing fraud. Nov/66

Fringe benefits
(see Benefits and perks)

Infection control
Should contact lenses be banned in the lab? Feb/56
Use fewer safety products, administration admonishes. May/73
Safety precautions ignored when babies visit the lab. Sept/85
Mandated HIV testing for laboratory staff. Sept/91

Inspection and accreditation
CAP finds lab's work good; state agency doesn't. Jan/59

Institutional politics
Communication goes up but it doesn't come down. Jan/60

Instrumentation
Doctors remain dubious about analyzer's accuracy. Oct/73

Interdepartmental relations
Enhancing communication with the pharmacy staff. Aug/70
Interdepartmental cross-training: Perils and pitfalls. Sept/85

Interviewing
Checking the credentials of job applicants. Feb/58

Laboratory utilization
Choosing criteria for appropriate lab utilization. July/70

Legal issues
Report lab director for doing a "sink test"? April/63
Illegal to stay after accepting a job elsewhere? April/63
Lab manager permits dangerously sloppy work. Aug/67
Interdepartmental cross-training: Perils and pitfalls. Sept/85

Marketing
Small rural hospital lab being squeezed by clinics. Dec/73

Microbiology
CAP finds lab's work good; state agency doesn't. Jan/59

Morale
(see Staff morale)

Motivation
Challenging technologists whose routines are boring. Feb/55
Evening technologists cry, "It's not my job!" April/66
Staff won't distribute survey forms to patients. May/69

New lab manager
New manager of large POL is drowning in projects. March/54
Should new lab manager institute open-door policy? May/69

New supervisor
Young supervisor wants both frankness and respect. Oct/77

Off-shift staff
(see Scheduling)

On-call hours
(see Scheduling)

Overtime
Pay overtime for uncalled on-call hours? July/72

1992 Editorial Index

Patient relations
Staff won't distribute survey forms to patients. May/69

Personal finance
(see Financial management)

Personnel shortage
Tips for enhancing weekend rotations. July/72

Physician relations
MDs want to be called for all abnormal test results. June/68
Choosing criteria for appropriate lab utilization. July/70
Doctors remain dubious about analyzer's accuracy. Oct/73

Preventive maintenance
(see Instrumentation)

Problem employee
MT's explosive behavior has coworkers distraught. Feb/55

Problem lab director
Report lab director for doing a "sink test"? April/63

Problem lab manager
Lab manager permits dangerously sloppy work. Aug/67

Problem supervisor
Supervisor denies he's rude to clerical staff. July/70

Procedures, policies, protocols
Once requested, must vacation time be taken? May/69
Safety precautions ignored when babies visit the lab. Sept/85
Mandated HIV testing for laboratory staff. Sept/91
Manual test reporting increases errors, bogs down lab operations. Nov/65
Is it wise to institute a dress code in the lab? Dec/68

Promotions
Clerical staff promoted out of lab, leaving gaps. June/70

Quality assurance
May exception reports replace total result review? Aug/68

Regulations
Should contact lenses be banned in the lab? Feb/56

Result reporting
MDs want to be called for all abnormal test results. June/68
Manual test reporting increases errors, bogs down lab operations. Nov/65

Result review
(see Quality assurance)

Safety
Unsafe: Long hair and dangling jewelry. March/53
Use fewer safety products, administration admonishes. May/73
Cosigning work of bench tech with little training. July/69

Salaries
Two assistants earn more than longtime supervisor. March/53
Pay overtime for uncalled on-call hours? July/72

Scheduling
Supervisor's extended sick leave leaves a gap. April/64
Once requested, must vacation time be taken? May/69
Drawbacks of proposed 13-hour shifts. June/67
Tips for enhancing weekend rotations. July/72
Pay overtime for uncalled on-call hours? July/72

Seniority
Two assistants earn more than longtime supervisor. March/53
Section director pillages budget for pet projects. April/64

Sexual harassment
How to deflect lab director's unwanted attentions. Oct/70

Shortage
(see Personnel shortage)

Sick leave
Supervisor's extended sick leave leaves a gap. April/64

Staff morale
Communication goes up but it doesn't come down. Jan/60

Staff relations
MT's explosive behavior has coworkers distraught. Feb/55
Should new lab manager institute open-door policy? May/71
Cosigning work of bench tech with little training. July/69
Supervisor denies he's rude to clerical staff. July/70
Safety precautions ignored when babies visit the lab. Sept/85
Young supervisor wants both frankness and respect. Oct/77
Frenzied political debate splits openly partisan technologists. Nov/65
Lab manager won't halt supervisor–technologist romance. Dec/68

Supervisor's role
Lab manager won't halt supervisor–technologist romance. Dec/68

Teamwork
(see also: Interdepartmental relations)
Communication goes up but it doesn't come down. Jan/60

Telephone issues
Let one MT, who likes the phone, field all calls? March/56
MDs want to be called for all abnormal test results. June/68
Manual test reporting increases errors, bogs down lab operations. Nov/65

Time management
New manager of large POL is drowning in projects. March/54
Should new lab manager institute open-door policy? May/71
When to follow up on delegated tasks. Aug/67
Manual test reporting increases errors, bogs down lab operations. Nov/65

Training
(see also: Cross-training)
Clerical staff promoted out of lab, leaving gaps. June/70
Cosigning work of bench tech with little training. July/69

Turnover
Clerical staff promoted out of lab, leaving gaps. June/70

Unions
Lab manager deplores friction in unionized lab. Jan/59

Vacations
(see Scheduling)

Workload management
New manager of large POL is drowning in projects. March/54

TIPS ON TECHNOLOGY INDEX

Abnormal chemistry profiles. Jan/13
Acceptable tubes for blood banking. March/10
ADA test for tuberculosis. June/11
Albumin vs. LISS. Jan/14
Ammonia testing. June/12
Ascitic fluid, differential counts on. April/15
Benzethonium chloride test for urinary protein. Aug/14
Bicarbonate values in peritoneal fluid. Feb/12
Bilirubin on lyophilized specimens. May/14
Bleeding times in the elderly. May/11
Blood bags, culturing of. July/11
Blood banking tubes. March/10
Blood cultures from heel sticks. Dec/13
Breath lactose. Nov/14
Budding yeast in urine. Dec/13
BUN/creatinine ratio. Feb/11
Calcitonin testing and thyroid tumors. July/11
Chemistry profiles, abnormal. Jan/13
Cholesterol, pleural fluid. Feb/14
CK and LD, total. Nov/16
CK, low. Feb/11
Class A glassware. Feb/14
Coagulation testing, hemolysis and. June/11
Coffee in the cutting room. March/9
Controls, immunoassay. July/14
Creatinine and VMA, urine testing for. Jan/14
Creatinine/BUN ratio. Feb/11
CSF antigen testing. Jan/16
Culture, blood. Dec/13
Culture, mixed flora. Oct/16
Culture, refrigerated sputums for. April/12
Culture responses. Sept/14
Culturing blood bags. July/11
Cutting room, eating and drinking in. March/9
Cytokines in scleroderma. Aug/12
D-dimer in pulmonary embolism. Nov/13
Defining lipemia. March/12
Dialysis water. May/12
Differential counts on ascitic fluid. April/15
Down syndrome, screening for. March/9
Drawing order for phlebotomy tubes. Dec/14
Drawing specimens from IV arm. April/15
Enterococcus susceptibility testing. Nov/16
Eosinophils, urine. March/10
ESR, storage time for. Nov/14
Fat composition. May/12
Fat, fecal. June/12
Formalin concentrations. April/11
Glassware, class A. Feb/14
Glucose oxidase test. Dec/16
Glucose solution for GTT. Dec/16
Glucose tolerance test. Aug/11, Dec/16
Heart attack, myosin test for. June/14
Heel sticks, blood cultures from. Dec/13
Hematology panels, stability of. Sept/13
Hemolysis and coagulation testing. June/11
High WBC and hemoglobin results. Aug/14
HIV in sweat. Sept/13
Hyperlipidemia. May/11
Immunoassay controls. July/12
International Normalized Ratio. Oct/13
Kleihauer–Betke stain. Feb/12
Laboratory waste disposal. Oct/14
Lactose, breath. Nov/14
LD and CK, total. Nov/16
LD, low. Feb/11
Lead poisoning. Oct/14
Leukocyte count. April/11, July/14
Lipemia. March/12
Lipid tests. May/11
LISS vs. albumin. Jan/14
Low enzyme values. Feb/11
Mastectomy, phlebotomy after. June/12
Mixed flora culture. Oct/16
Monitoring oximeter. July/11
Multiple myeloma. Sept/17
Myosin and heart attacks. June/14

1992 Editorial Index

Order of draw for phlebotomy tubes. Dec/14
Ovarian cyst and false-positive pregnancy test. June/14
Oximeters, in vitro and in vivo. July/11
pCO_2 and pH, pleural. March/10
Pediatric bilirubin. May/14
Pediatric urines. May/12
Peritoneal fluid, bicarbonate values in. Feb/12
pH and pCO_2, pleural. March/10
Phenolphthalein in stool. Sept/17
Phlebotomy after mastectomy. June/12
Phlebotomy tubes and order of draw. Dec/14
Pleural fluid cholesterol. Feb/14
Pleural pH and pCO_2. March/10
Pregnancy test, false-positive. June/14
Preop prothrombin times. Dec/13
Preoperative laboratory testing. April/12
Protein, total. Nov/14
Prothrombin time controls. Oct/13
Prothrombin times, preop. Dec/13
PSA test, specificity of. March/12
PTs, stability of. Jan/16
Pulmonary embolism. Nov/13
QC records, retention of. Jan/13
Qualitative fecal fat. June/12
Record retention. Jan/13
Reducing substances. Dec/14
Reference values for reticulocytes. Oct/16
Refrigerated sputums for culture. April/12
Retention of QC records. Jan/13
Reticulocytes, reference values for. Oct/16
RPR testing. Sept/14
Scleroderma, cytokines in. Aug/12
Screening for Down syndrome. March/9
Serum and multiple myeloma. Sept/17
Smoking in the laboratory. June/11
Smudge cells. April/11, July/14
Specific gravity of urine. Nov/13
Specificity of PSA test. March/12
Specimen drawing from IV arm. April/15
Specimen time in the lab, tracking. Aug/12
Sputum culture. April/12
Stability of hematology panels. Sept/13
Stability of PTs. Jan/16
Sterility of syringes. Aug/12
Storage time for ESR. Nov/14
Syphilis testing. Sept/14
Syringes, sterility of. Aug/12
Thyroid tumors and calcitonin. July/11
Total CK and LD. Nov/16
Total protein. Nov/14
Tracking specimen time in the lab. Aug/12
Transfusion reaction. July/11
Tuberculosis, ADA test for. June/11
Tubes for blood banking, acceptable. March/10
Urinary protein. Aug/14
Urine eosinophils. March/10
Urine, fat in. May/12
Urine, pediatric. May/12
Urine specific gravity. Nov/13
Urine testing for VMA and creatinine. Jan/14
VMA and creatinine, urine testing for. Jan/14
Waste disposal, hazardous. Oct/14
Water for dialysis. May/12
WBC, high. Aug/14
Yeast in urine, budding. Dec/13

WASHINGTON REPORT INDEX

HCFA's Gail Wilensky explains final CLIA '88 regs. Jan/18
Final OSHA regs mandate HIV, HBV protection. Feb/17
HCFA, IRS, FBI intensify fraud and abuse investigations. March/17
Elusive CLIA regs on track, more or less. March/18
CLIA '88 rules go final, HCFA details sweeping changes. April/17
With more questions than answers, industry studies impact of CLIA '88. May/17
Lab discounts to physicians under fire. June/17
CLIA may curb 4,000 POLs. June/19
Labs face new fee cut to fund health insurance plan. July/17
Self-referral controversy boils anew. Aug/21
With final rules all in place, CLIA takes effect. Sept/19
Candidates differ widely on health care reform. Oct/19
Threat to "home brew" products angers labs. Nov/19
POLs adjusting to life under CLIA. Dec/19
AAB approved for PT. Dec/20 ■
